Skills

- Web Development
- Data Analytics
- Automation
- Rest Api Integration
- Communication
- Team Collaboration
- Problem Solving
- Public Speaking

Programming Languages

- Java
- C#
- HTML/Css
- SQL
- JavaScript
- Python
- TypeScript

Frameworks

- .NET
- React.js
- SpringBoot
- FlutterFlow

Tools and IDE

- Visual Studio
- Visual Studio Code
- NetBeans
- Postman
- GitHub
- Overleaf LaTeX
- IntelliJ IDEA
- Jupyter Notebook
- Microsoft Workspace
- Firebase
- SSMS
- MySql

Languages

- English: Fluent
- Malay: Proficiency
- Thai: Fluent

Arveend Phraseart Ma Noon

About Me A detail-oriented software engineering student with hands-on experience in developing innovative solutions, automation, and data analytics. Passionate about leveraging technology to drive efficiency and create impactful user experiences.

Education

2021 - 2025, Universiti Malaysia Terengganu

Bachelor of Computer Science(Software Engineering) with Honours

CGPA: 3.40

2020 - 2021, Universiti Malaysia Terengganu

STEM (Science Technology Engineering and Mathematics) Foundation

CGPA: 3.96

2018, SMK Taman Tasik Taiping

SPM: 8A 1B

Working Experience

August 2024 - January 2025, Application Developer Intern, Spritzer Berhad

- Streamlined internal web portal workflow processes by developing automated tools for PowerPoint generation and Excel export using **React**, **TypeScript**, and **ASP.NET**, reducing manual workload for teams.
- Enhanced operational accuracy by integrating **ManageEngine API** and **C#** to detect and resolve ticket assignment errors, ensuring timely technician responses through automated email notifications.
- Improved system efficiency by leveraging **machine learning** and **C#** to accurately predict and auto-complete missing or incorrect ticket fields, minimizing data inconsistencies.
- Simplified ERP email workflows by automating supplier acknowledgment processes using **AI** and **C#**, enabling faster and more reliable transaction management.
- Extracted data from **Manage Engine API** to **Power BI** and **Excel** for monthly reporting visualization.
- Automated tracking of unresponded tickets by extracting data from **ManageEngine API** and sending reminders to group chats in Ms Teams utilizing Power Automate workflows, improving response times and accountability.

2023 - 2025, Freelance

Developed a cross-platform application using FlutterFlow, integrating Firebase for backend functionality, including real-time database, authentication, and cloud functions.

2023, Research Assistant, UMT

Developed prototype frontend and backend modules for mobile application utilizing Firebase and FlutterFlow.

2020, Sales Assistant, Sow Wing Moulding Company

Dealing with customers and stock inventory.

Achievement and Certificate

- Top 10 Best Debater, "Debat Uniti Keluarga Malaysia, Piala YB Menteri Perpaduan 2022".
- Champion and Best Debater, UMT Vice Chancellor Cup Debate Competition 2022.
- IBM SkillsBuild: Artificial Intelligence Fundamentals
- IBM SkillsBuild: Data Fundamentals
- Google Developer Fest, Georgetown [LangChain, Vertex AI, SQL and Gen AI with Firebase Data, Fundamentals of Flutter]
